RE: Academic Program Inventory

BACKGROUND:

The Office of Higher Education maintains an inventory of approved academic programs offered by public and independent colleges and universities in Connecticut. Those listings are available to the general public through the Office’s web site and provide the most accurate up-to-date information about programs of study in our state.

The information on the Inventory of Approved Academic programs is an important resource and is used to convey educational information to a broad range of constituencies, both in Connecticut and across the country. Additionally, in order for veterans to receive their earned educational benefits, they must be enrolled in a program that is accredited.
